

CAREERS

Smart Folks personnel are experienced IT professionals with strong technical and leadership skills. Our consultants have backgrounds in Fortune 500 and other successful companies. Core specialties include project management, business analysis, technical architecture, quality assurance and infrastructure.

Our in-house consultants and extended network of high-quality, senior consultants have demonstrated track records of success. Each is individually tested and screened for deep technical and "soft" skills.

INDUSTRY VERTICALS

The deep domain expertise in Industry verticals:

Converged communication markets

- Telecom Service provider
